We recommend creating a LiveCode community account for

- * Access to the LiveCode community forums
- * Free trials for all the LiveCode academies
- * Notification of latest releases of LiveCode
- * Post comments throughout the LiveCode community
- * Discounts on LiveCode products/extensions
- * Use of the LiveCode community samples portal

Creating an account is simple, all we need is your name, email and password and you're good to go.

Troubleshooting

- When double clicking on LiveCode, you may face with this message:

- Open it by **Right Clicking** on LiveCode, and then selecting **Open**
